Hi Jason,

Lisa and I looked into the 3 aqua-culture facilities on the list of expired permits in ICIS. Lisa has already spoken with you about IDG-130116 (First Ascent Fish Farms). With regards to IDG130091 (Deadman's Gulch) and IDG130097 (C&M Fish Farms), their status in ICIS is correct. We've checked the files and there are no applications for renewal. Both of these facilities are/were owned by the same person: Jeff Coats. We received an application for an NOI for Deadman Gulch from a new owner and we denied coverage because the GP is in administratively extended status.

I recently had some reporting information come in for a permit that is expired in ICIS (IDG130116) and I have passed that along to Lisa to look into. Here is spread sheet of all R10 expired permits in ICIS, I just want to confirm this is all correct and current information. Thanks so much.
